

ESG REPORTING & SUSTAINABILITY

AUTOMATE ESG REPORTING FOR REAL-TIME ACCOUNTABILITY & RESULTS

A REPORTING FRAMEWORK IS ONLY AS GOOD AS THE DATA IT ORGANIZES

While demand for Environmental, Social and Governance (ESG) reporting grows from regulators and investors, the process of gathering and understanding the data lags far behind. This call for disclosure comes from the desire to improve corporate performance and efficiency. And yet, the existing approach renders this almost impossible.

We help customers transform the way they collect , analyze and report ESG data, empowering front-line employees to reduce cost and resource intensity every day. This allows organizations to eliminate arduous annual reporting while strengthening their bottom line and minimizing environmental impact.

SEE THE FULL PICTURE, IMPROVE PERFORMANCE

Legend Analytics™ automatically gathers ESG data and integrates this information with your financial disclosures to eliminate burdensome reporting processes and improve corporate transparency and performance. We identify opportunities for improving environmental impact and implement solutions.

BENEFIT FROM A WHOLLY INTEGRATED SYSTEM

MARKET SERVICES

The market data our team captures to support energy procurement feeds into our analytics platform, giving financial context to flow, BTU, kWh and other metrics monitored by the Legend Analytics™ platform.

INFRASTRUCTURE SERVICES

Granular operational data highlights high energy usage processes and machines, suggesting where on-site generation and renewable connections are necessary to meet ESG targets, improve cost and provide further opportunities for efficiency improvements.

ESG DATA COLLECTION & REPORTING

Legend makes ESG data actionable by capturing it in real-time and equipping front-line employees with the tools they need to track more granular operational information. The LegendAnalytics™ platform also empowers the C-Suite to make data driven ESG decisions across their entire organization rather than depending on gross estimates. We eliminate arduous reporting processes while improving accountability,

REAL-TIME EFFICIENCY & PRODUCTION DATA

DAILY ENVIRONMENTAL REPORTING

EMISSIONS TRACKING AND EVENT ALERTS

REAL-TIME ENVIRONMENTAL ALARMS

AUTOMATED ANNUAL ESG DATA REPORTING

ENVIRONMENTAL & ENERGY MARKETS

Environmental and energy markets are complex and change constantly. Legend brings transparency to these markets by eliminating hidden fees and helping customers develop and implement a financially sustainable ESG strategy.

CARBON OFFSET PURCHASING

RENEWABLE ELECTRICITY PURCHASING

WHOLESALE ENERGY PURCHASING

RENEWABLE NATURAL GAS PURCHASING

RENEWABLE ENERGY STRATEGY DEVELOPMENT

SUSTAINABILITY PROJECT DEVELOPMENT & MANAGEMENT

Sustainability begins behind the meter, by reducing operational natural resource intensity. You need real-time data to understand the efficiency of your equipment, labor and raw material consumption. Additionally, infrastructure projects like solar, efficient storage and co-generation can lower natural resource intensity and financial cost.

REAL-TIME FACILITY DATA ACQUISITION

FACILITY ENERGY AUDIT

LIGHTING RETROFITS

SOLAR POWER & BATTERY PROJECTS

REMOTE CONTROL, AUTOMATION & PREVENTATIVE MAINTENANCE

"WITH THE LEGEND ANALYTICSTM PLATFORM, WE CAN SEE OUR ENVIRONMENTAL IMPACT LITERALLY EVERY 5 MINUTES. THIS NOT ONLY MAKES OUR ANNUAL REPORTING AS EASY AS A CLICK OF A BUTTON, IT ALLOWS US TO MONITOR OUR FOOTPRINT IN REAL-TIME AND ACTUALLY AFFECT CHANGE EVERY DAY."
