DEVELOP AND EXECUTE YOUR ENERGY STRATEGY, IN REAL-TIME

ENERGY MARKETS ARE IN A CONSTANT STATE OF CHANGE

Our market insight and real-time data empowers our customers to more efficiently navigate the complex energy landscape.

Volumetric risk behind the meter drives market risk in front of the meter. Understanding how much volumetric risk is controllable provides a critical first step toward managing market risk and understanding factors driving sustainability and natural resource intensity. By seamlessly combining our proprietary LegendAnalytics™ platform with our industry leading Markets service Legend customers get unprecedented transparency into their energy consumption and resource intensity in real-time.

NEGOTIATE REGULATED AND DEREGULATED MARKETS

Our team of experts provides a hands-on, collaborative approach to developing and executing a specialized energy management strategy for clients operating in both regulated and deregulated markets.

STRATEGY DESIGN AND EXECUTION

Our hands-on, active approach mitigates regulatory, environmental, physical and other risk factors.

NEGOTIATION AND REPRESENTATION

We negotiate contracts, tariffs and Power Purchase Agreements (PPA) for power, natural gas and other fuels.

ACTIVE ENERGY MANAGEMENT

We actively dispatch your power as well as perform daily gas nominations and balancing over the contract.

COVERING EVERY COMPONENT OF YOUR BUSINESS

INFRASTRUCTURE

Our Markets expertise allows us to implement infrastructure projects seamlessly into procurement strategy showing the true relative cost and payback.

ANALYTICS

The market data our team captures feeds our analytics platform, giving financial context to flow, btu, kWh, and other metrics monitored by the Legend Analytics™ platform.

**"LEGEND WORKED LITERALLY 24/7 DURING A SEVERE STORM ACTIVELY
MANAGING ENERGY IN THE MARKETS ON OUR BEHALF. THEY
NETTED US OVER \$1.5M IN THREE DAYS. AS A RESULT OF THEIR
INFRASTRUCTURE SERVICE DURING CONSTRUCTION WE WERE THE
ONLY ONE OF OUR COMPETITORS ONLINE DURING THE STORM AND
ABLE TO LIQUIDATE ENERGY INTO MARKETS."**
